- + Two hook fixing locations to adjust the bags roll closure based on the load size
- + PVC-free reflective fabric
- + Comfortable carrying system
- + Zippered outer pocket in the flap (not waterproof)
- + Side mesh outer pocket
- + Improved closure size and access when compared to previous Vario design
- + Inside pocket with laptop compartment (36 x 24,5 x 2,5 cm)
- + Carry handle, Sternum strap, 3M Scotchlite reflectors

Contents: Waterproof backpack-pannier hybrid with QL2.1 mounting

Optional accessory: Anti-Theft-Device (E124), QL2.1 hook 18 mm (E211) & 20 mm (E193)

Attention: Maximum load per pannier is 9kg / 20 lbs. We recommend weighing each loaded pannier to confirm that the maximum allowance of the pannier fixation is not exceeded. This practice is advised for both rear and front panniers. **CAUTION:** The maximum weight capacity of every carrier model is different. Please observe the maximum weight allowance of the carrier fitted to your bicycle. **Note:** Sometimes the maximum capacity of the panniers fixing system can exceed the maximum capacity of the carrier. **DO NOT** exceed the maximum capacity of the carrier! **Note,** that the use of panniers will significantly influence the handling properties of your bicycle.

Attention: As abrasion cannot be ruled out, we recommend that all points where the mounting system contacts the bicycle rack or frame be protected by scratch protection film.

Note: In order to meet standard IP64 (6=dustproof, 4=protected against splash water coming from all directions) the roll closure must be rolled at least 3-4 times.
