

ORTLIEB E-MATE

WATERPROOF BIKE PANNIER (SINGLE BAG) FOR E-BIKES

E-Mate has been designed by ORTLIEB especially for E-Bikes: a waterproof rear pannier with the proven QL2.1 mounting system. With 16 liters volume it takes anything for a comfortable day trip or a city tour by E-bike, offering room for a spare battery and the E-Bike display.

The bright colored interior allows easy packing; the main feature: a padded and removable sleeve holds a battery (compatible with Bosch, Shimano, Yamaha, Bionix). The E-Bike display can be nicely stowed inside a zippered lid pocket. An outer mesh pocket helps keep things organized and allows quick access to the contents.

The new magnetic closure allows quick access to the bag. Thanks to interior stiffeners the bag is stable and will stand alone, helpful when packing. The padded shoulder strap ensures comfortable transport of the pannier. Light grey reflectors ensure safety from dusk to dawn. E-Mate is sustainably produced in Germany and made of PVC-free nylon fabric.

The ORTLIEB QL2.1 system allows fast and easy single-handed mounting and removal of the panniers to almost any carrier. The system is adjustable without requiring any tool, and is suitable for racks with a tube diameters up to 16 mm (hook inserts for diameters of 8, 10 and 12 mm are included).

The hook rail on the lower rear side of the pannier serves for additional fixation; it is made of a two-component synthetic combination with anti-scratch function. This reduces abrasions on the carrier and prevents damage to the rack tubing. Thanks to the QL2.1 mounting hook rotatable in 45° steps the system is compatible with almost any bike rack. A 20 mm hook is available as optional accessory (article code E193) for carriers with larger diameter.

OPTIONAL ACCESSORIES

Carrying System Bike Pannier, Outer-Pocket 1,8 L, Mesh-Pocket, Bottle-Cage, Anti-Theft Device (E125), QL2.1 hook 20 mm (E193).

SPECIFICATIONS
